Build with **anakin.io**

Code, Scrape & Conquer

DATE

10 May 2026

LOCATION

Bangalore, IN

PRIZE POOL

₹20,000+ & swag

A curated builder room of builders

100+

Approved builders

4 hours

Focused build time

1

API Suite

Anakin gives you APIs to power all your **AI workflows**.

A full suite - **scraping, browser infrastructure, and web interactions** - to search, interact, and extract data at any scale.

```
# scrape any url, get clean markdown
curl https://api.anakin.io/scrape \
-H "Authorization: Bearer $ANAKIN_KEY" \
-d '{
  "url": "https://news.ycombinator.com",
  "format": "markdown",
  "useBrowser": true
}'
```

// products available today

Search API

Agentic Search

Browser Sessions

Browser API

The day, hour by hour.

10:00 - 11:00	Check-in & Refreshments	Settle down, and get Wi-Fi access.
11:00 - 11:30	Kickoff & Agenda	This deck. Then go.
11:30 - 15:00	Building	Build your project
15:00 - 15:30	Project Submission	Show us what you have built
15:30 - 16:00	Networking	Network, show-off your build, and connect

Only **Five** rules

01 Solo Building

02 New code today only

03 Anakin in the critical path

04 Public repo by submission time

05 Keep the space neat and tidy

What to **submit**?

Social Media Post

LINKEDIN AND/OR X (TWITTER)

Live Project Link

DEPLOY ON VERCEL OR ANY OTHER PLATFORM

Github Repo Link

PUBLIC REPO, PLEASE

(optional) Explainer Video (~ 3 mins)

DEMO YOUR PROJECT TO US

Project Details

DESCRIBE YOUR PROJECT AND USE CASE

What we're looking for

40%

The Idea

Specific user, specific pain. Generic "AI for X" pitches will land softly.

30%

Execution

Live demo, real data, actual flow. One polished feature beats five broken ones.

30%

Real world Usecase

Bonus if you'd keep using it. Double bonus if a stranger would too.

Use of anakin.io is mandatory

07 · PRIZES

₹20,000+
plus swag

1st · Grand prize

₹10,000

2nd · Runner-up

₹7,500

3rd · Third place

₹5,000

Best Creator x 2

**Amazon
Vouchers**

*Please note that all submissions will be reviewed after the event concludes, and winners will be announced by **Sunday, 17th May 2026**

What you need on your machine?

// editor

Cursor, Codex, or Claude Code

Any AI-native editor works. We've seen full builds done in a single Claude Code session.

// shell

A working terminal

macOS or Windows, doesn't matter. You'll be running curl, npm, and git all day.

Food, Wi-Fi, rooms.

// food

Food all day, on us

Refreshment, Lunch, & coffee
on us

// network

Wi-Fi

SSID and password are printed
everywhere in the office

// rooms

Seating

There are two floors (3 & 4) -
grab a seat anywhere you want

We're in the room all day.

Talk to us! We're not judges, we're support

API debugging

Idea feedback

Pair programming

Demo prep

Credit top-ups

THE CLOCK STARTS NOW.

Let's Build.
